

ULTIMATE EMBROIDERY MACHINE "HCS 1201-30"

Built with the same principles and superior craftsmanship Happy is known for, the new Happy Compact will finally fill the gap between home and commercial embroiderers! Capable of sewing on all types of finished goods including hats, the new Happy Compact knows no limits!

COMPACT!
FAST!
EASY OPERATE!
LIGHT WEIGHT!

SAFETY COVER

If the cover is opened during operating, a sensor detects its opening and the machine automatically stops to avoid danger.

ROTARY THREAD BREAK DETECT SENSOR

The rotary thread break sensor monitors each thread and automatically stops machine when the thread has broken or the bobbin is empty.

NARROW CYLINDER ARM

Happy's Narrow cylinder arm allows embroidery in tight areas, such as cuffs or pockets. The small diameter of the arm fits in areas normal machine's can't sew.

BUILT IN BOBBIN WINDER

The machine is equipped with a bobbin winding device. (Independent bobbin winding motor system)

Thread adjusting spring

Happy's thread adjusting spring provides smooth upper thread supply and high quality embroidery even at high speed.

HCS Series 1201-30

Computerized Compact Single Head Embroidery Machine
Made in Japan

Color LCD Control Panel (OPTION)

Easy and no-nonsense controls, make the HCD-series a snap to learn. Because the faster you learn, the sooner you can be productive!

Color LCD

Standard LAN Connection

Simple to operate and based on standard LAN connection systems this feature lets your HAPPY machines work together in any combination - without any expensive, additional hardware!

CAP FRAME (OPTION)

With Happy's optional cap sewing attachment quality embroidery on finished caps is now possible. A feature normally found only in commercial models, Happy's HCS cap sewing system attaches to the machine with ease bringing finished cap embroidery to you in a home machine.
